### **Teaching Strategies Gold™**

This training offers information on a brand-new, ongoing observational assessment tool based upon years of feedback from thousands of educators about how children develop and learn. This assessment system helps teachers be intentional in their teaching by accurately pinpointing where children are in their development and learning. *Registration is limited to 20 participants.*

### **Common Behavioral Problems of School-Age Children**

This training class will discuss typical conduct issues, attention issues, and school-related behavioral problems as well as strategies for intervening school-age behavioral problems. The class will be conducted by Joshua Lutz, a national certified school psychologist and private therapist at the Lutz Assessment and Counseling Center, LLC.

Milton, FL 32570

### **The Link Between Observation, Assessment, and Language and Literacy Curriculum**

This training will provide an overview of the importance of careful observation of young children. Participants will explore ways to observe, assess and plan curriculum for early language and literacy. *Registration is limited to 20 participants.*

**Early Learning Coalition of Santa Rosa County**  
6555 Caroline Street  
Milton, FL 32570

### **Health Care Training: Hand Hygiene**

This program is so important it needed its own video! Yes, everyone knows how to wash their hands, but do they really? In a child care environment, it is critical as young children do not have a fully developed immune system to protect them, so extra care and caution is imperative. What is the best hand drying method: hot air blower or paper towels? The answer may surprise you!

### **Infant/Toddler Training: Social-Emotional Development within the Context of Relationships**

This training helps caregivers to promote Social and Emotional Competence in the infant/toddler care setting. This module was designed based on input gathered during focus groups with program administrator, training and technical assistance providers, early educators, and family members about the types and content of training that would most be useful in addressing the social-emotional needs of young children, and is also consistent with evidence-based practices.
